# MONDAY MORNING *Mastery*

## CLARITY—SIMPLICITY—SPEED

The Systems Thinking Approach® to Business and Life Success

- ✓ A four-part “how-to” workshop series or individual, stand alone workshops
- ✓ Half-day workshops, once a month
- ✓ Receive one credit (CEU) from the University of San Diego for the series
- ✓ Series leads to two Gold Mastery Certifications

The Systems Thinking Approach® is an integral component to business success. By grasping the fundamentals of how an organization works, as a system, it is possible to work through its complexity and arrive at real, effective solutions to difficult individual, team, and organizational problems.

We'll help you and your staff to think, plan, and act strategically on a daily basis with *Clarity, Simplicity, and Speed*. Get ready to kick-start your organization into high gear when the economic turn-around occurs.

Each month is an individual learning workshop to think more strategically on a daily basis. By completing this four-part *Monday Morning Mastery* Series, you have finished step one of a simple three-step process to achieving a Gold Mastery Certification in Strategic and Systems Thinking or Strategic Management.

*Monday Morning Mastery* is designed and led by the Haines Centre Master-Facilitators (see image above, from left to right) Dr. Sheri Barker, Eric Denniston, Steve Haines, Loren Tarantino and Jeri Denniston.
